

B2B... that is no question... and not to be confused with "to be, or not to be" ... now there's a question. No one will ever confuse me for being a poet or playwright...ha. Likewise, no one should ever doubt my focus on business-to-business manufacturing and fabrication. We work for and serve the big guys. Heavy duty industry with heavy duty expectations. RK RUBBER delivers the goods big time... every time.

Sometimes Our Products Suck

Let's be clear,
RK RUBBER doesn't suck
but some of our
custom vacuum parts do!

Thank You

A sincere thank you to NIBA for printing my story in the Spring 2022 edition of Belt Line.

And to all of you who reached out and continue to send well wishes. I am truly touched and humbled.

Thanks for sending us your cartoon captions!!!

Melissa got a promotion - she's our new C.C.O. (Chief Cartoon Officer)

Would you believe she's the serious one around here?!

Since we're already casual around here, Melissa is floatin' the idea of "Clown Fridays!"

Some people are afraid of clowns... everyone is afraid of Melissa... hahahahaha.
